

# Flood Situational Awareness

Use the ORB-X1 to monitor water levels in rivers, dams, lakes and levees.

Receive early warning of rising river levels with online SMS and email alerts.

Easy installation with solar or battery operation,

Use the OB-X1 current source or voltage input to monitor water level with a 4-20mA or voltage output depth sensor.

Extremely low power consumption means many years of operation on AA batteries.

Integrated GPS for easy location identification.

Pole or wall mount with included mounting brackets.
