

# K9 Unit Monitoring

K9 units are valued members of police units that deserve to be looked after, in kennels and during transport.

Monitor temperature and humidity of enclosures and know immediately if cooling units fail.

Ensure adequate water supplies.

Be assured that gates are closed.

Use K, J, T, N, S, E, B and R-Type thermocouples connected directly to the ORB-X1.

Connect an optional humidity sensor to the 4-20mA or voltage inputs on the ORB-X1.

Monitor water levels with a level switch connected to an input on the ORB-X1.

Connect door switches directly to the ORB-X1 level inputs.
